

Dear Members,

The Placer County Health Department has published a clarification about the operation of short-term rentals in North Lake Tahoe, including Dollar Point. The clarification is based on the Governor's executive order regarding COVID-19.

Placer County Health Officer, Aimee Sisson, urged all short-term rentals to cease commercial operations because short term rentals used for commercial purposes are not considered part of critical infrastructure under the governor's order. Ms. Sisson indicated that **short-term rentals may only operate:**

- To provide COVID-19 mitigation measures (for example, isolation and quarantine or the housing of displaced persons or the homeless.)
- To provide housing for essential critical infrastructure workers and
- For use by the property owner and his/her immediate family
