DUMPSTER DAY RECAP

We are happy to report that Dumpster Days over Memorial Weekend was very successful. We saw a 98% increase in participation over last year. Adding the additional day, incorporating a top loader and having great staff made for a smooth process with little to no wait time.

A big thank you to Steve Pardia, Dumpster Day Lead for our Fire Committee, for coordinating a well run 2-day event. In addition, we are thankful to Cailin, DPA Assistant Manager and her staff for assisting Steve. Well done team!

If you missed Dumpster Days here are other options during the summer:

Tahoe Truckee Sierra Disposal has **FREE** green waste dump opportunities—here is an overview:

** Pick up your **FREE** punch card (on your first dump visit):

NT Fire reminds us each year to be sure we have reflective house numbers on our bear boxes in the event of a fire or emergency so they can find your home quickly. DOLLAR POINT POOL OFFICE has free reflective numbers!

While you are out for a stroll in your neighborhood, a quick check of the hydrants to make sure they are easily visible in the event of a fire is a way to help keep us all safe. . Report any issues to our committee.

WILDFIRE SEASON IS HERE. Cleaning our properties (**especially getting rid of manzanita**) is essential to our safety as a community. As the summer comes upon us and as covid restrictions lighten up, we will be having educational speakers come to talk to our community about fire prevention and awareness and evacuation process.

FireWise asks us to maintain stats on homeowner costs to remove green waste and maintain defensible space, including replacing roofs. If you have paid others to clean and remove flammable vegetation from your yards or replaced a roof, please give those numbers to Nate Walker on our committee who reports them to FireWise for our annual re-certification.

Please go to the Dollar Point Website and click on Fire Committee to find links for:

- Facts about creating Defensible Space
- Set-Up property inspections with NT Fire
- Prescribed Burns alerts
- Placer Alerts
- Red Flag Alerts and info
- Wildfire Evacuation Checklist
(Evacuation HI-LO siren...time to leave!)
- and much more.....

STAY SAFE AND WELL!
